Bronaeron, Felinfach, Lampeter, Ceredigion, SA48 8AG Tel: 01570 471754 enquiries@wpcs.uk.com www.wpcs.uk.com

All fields marked with * must be completed. Incorrectly filled in forms or those with errors will be returned.

The Society's Rule of Registration are available on the website, or you can request a copy from the office at cost. Please ensure you have read these rules before completing this application form. By signing this form, you are agreeing that you have read these rules and agree to abide by these rules.

When submitting forms to the WPCS you will need to provide us with certain personal information. Full details of our privacy policy can be found on our website. If you would prefer a hard copy, please ask a member of WPCS staff.

ARTIFICIAL INSEMINATION CERTIFICATE

To be completed by the Veterinary Surgeon or Approved Person collecting semen from the stallion, and the Veterinary Surgeon or Approved Person inseminating the mare.

NOTES FOR ARTIFICIAL INSEMINATION CERTIFICATE

Please ensure you have read the Society's Rules of Registration before completing this application form. By signing this form, you are agreeing that you have read these rules and agree to abide by these rules.

Stallion owners must obtain a lifetime A.I. permit for the stallion which is used in artificial insemination schemes. The permit must be obtained from the Society, per stallion. Retrospective permits must be applied for stallions already used in A.I. schemes.

Stallions to be used in Artificial Insemination MUST be DNA profiled before undertaking the collection and insemination process. In the case of stallions, they must be DNA profiled and licenced in accordance with the Society rules, and in the case of mares they must be DNA profiled in order that parentage testing of their foals can be effected, if required.

Stallion owners must maintain a special Report of Service which will be returned to the Society at the end of the covering season. Stallion owners must periodically submit reports of service to the Society outlining how many straws of semen have been sold, and the names of the mare owners and full registered names of the mares that were intended for insemination. It is the stallion owner/agent's responsibility to collect this information and notify the Society periodically in writing.

If frozen semen is sold in bulk by the owner of the stallion, then the seller and buyer must notify the Society in writing stating the nature of the sale, the number of straws transferred, and the buyer of the frozen semen must then produce periodic reports of service which are submitted to the Society.

The collection of the semen shall be carried out by a Veterinary Surgeon or an approved person, who will complete part one of the Society A. I. form. Insemination shall be carried out by a Veterinary Surgeon or an approved person who will complete part two of the Society A. I. form.

Office Use Only:	Name of Stallion:	Reg. No:		
Artificial Insemination Stallion Permit Number:				
Permit For:	A.I. Fresh	A.I. Chilled	A.I. Frozen	Natural Service

DNA parentage testing is mandatory for foals bred via A. I. frozen semen.
